COVID-19: Visiting friends and family with certain medical conditions

When you visit friends & family who are at higher risk for severe illness from COVID-19, remember

Wear masks, unless you have trouble breathing. #1234

Stay 6 feet (about two arm lengths) apart. At least 6 feet.

Meet outside if possible.

Wash hands often. Hand Sanitizer

Clean high-touch surfaces regularly and after you have visitors in your home.

Those at higher risk for severe illness should continue taking all precautions, even if they are fully vaccinated.

Protect your family and friends

Get a COVID-19 vaccine as soon as you can.
